Hello Chris,

1) I would like you to initiate an ethics investigation of Speaker Pro-Tempore Connor Brady. His dissemination of a private conversation without consent and the harassing nature of the information constitutes a mafeasance of duty. I personally believe the manner in which the Speaker Pro-Tempore operated by distributing his and Austin's conversation is highly unethical, and I would like to see the matter investigated by the Ethics Committee.

2) I also would like you to initiate another seperate ethics investigation of Speaker Pro-Tempore Connor Brady. His handling of procedure during Full Congress on March 5 for the motion to vote on SCB-94-242 constitutes a misfeasance of duty.

Thanks,

Conor
